

July 7th School Update

Hello St. Ann Staff and Families,

I am so excited to be officially part of the St. Ann community! I pray that you all are well and enjoying this time off. As we move through the summer, I will keep you updated on any important changes as they happen. One exciting update is that Leah Nguyen will be joining St. Ann as the new 5th/6th grade teacher. She will be teaching science and religion. Please join me in welcoming her!

Mrs. Leah Nguyen

I am looking forward to returning to teaching after raising my family, getting a Master's degree, and working at St. Ann Catholic Church for the last eight years! All my children have attended St. Ann School and I am a huge supporter of Catholic education. I taught at St. Joseph Academy in Tecumseh, KS as my first job and left to raise my family. I graduated from the University of Kansas in 1994 with a degree in English literature and received a Master's in theology from Holy Apostles College in 2019. I am so excited to return to the classroom and grateful for the opportunity to teach religion and science to 5th and 6th graders.

I will continue to work diligently to fill any remaining open positions. That being said, we still are looking for applicants for 2nd grade, middle school science, and instructional assistants. If you know of any qualified candidates, please have them email their resume to me at kminshall@stannpv.org. Teaching candidates will also need to apply on the [Archdiocesan website](#). I look forward to meeting everyone soon. Enjoy the rest of your summer!

Blessings,
Kelli Minshall
